

~DRAFT~  
**Plainfield Conservation Commission**  
**April 17, 2024 Minutes**

**Present:** Rose Paul, Becky Atchinson, Julie Hackbarth, Maureen (Mo) Lynch, Mary Trerice

**New Member:** Mo is now officially a member. Welcome, Mo!

**Minutes:** The March minutes were approved as written.

**Green-Up Day Report:** Becky and Mo reported that all is underway and under control. They have divided up the work and documented what's involved on our commission's google docs. Posters will go up soon as we accept posting assignments and the bags are on the front porch of the municipal office. We volunteered for various slots at the rec field and town garage and Mo will let us know if we are indeed needed. It's good to have other community members involved. We volunteered to provide some snacks for the rec. field morning.

**EAB:** Mary sent an email to Jim Volz but didn't hear back re: Joanne Garton's offer to provide some on-site discussion or give a presentation. Mary will contact WEC and GMP to see what ash clearing they have already done and also road foreman, Mike Bingham to see if he'd appreciate a session with Joanne.

**Act 59 Forums:** This is in regard to the legislature's 30% by 2030 initiative for conserved land. Becky attended a zoom session but didn't find it very informative. She requested minutes. Mo was able to explain a bit and will keep us informed. (She is involved because of her work.)

**Adjourn: 8:22**

Respectfully submitted,  
Mary Trerice
